PROFESSIONAL SUMMARY

Computer Science student and Operations Specialist with experience in Apple retail operations, technical support, device repair, inventory management, and customer service. Building software development skills through Java, databases, networking, software engineering, Git/GitHub, MongoDB, and web development projects.

PROFESSIONAL EXPERIENCE

Operations Specialist, Apple | Manhasset | April 2026 — Present

- Support daily store operations while delivering customer-focused service and maintaining strong execution standards.
- Coordinate operational and inventory processes while supporting teammates in a fast-paced retail environment.

Product Zone Specialist, Apple | Manhasset | Jul 2024 – Apr 2026

- Use Apple product and software knowledge to troubleshoot issues, identify customer needs, and provide tailored solutions.

Retail Parts Pro, Advance Auto Parts | Hempstead | Jun 2023 — Jun 2025

- Managed the DIY sales floor at a HUB location while balancing customer service, inventory, merchandising, and daily operations.
- Handled key-holder responsibilities, planogram execution, and customer product selection.

Service Technician, Assurant / T-Mobile | Lake Grove | Jun 2022 — Jan 2023

- Diagnosed and repaired Apple and Samsung smartphones, including OEM screen and battery replacements.
- Performed technical troubleshooting while maintaining repair quality and customer satisfaction.

Lead Technical Consultant, Sprint / Asurion | New York | Apr 2016 — Oct 2018

- Led a team responsible for smartphone diagnostics, troubleshooting, and repair.
- Managed inventory, supervised staff, and handled customer escalations.

PROJECTS

Destruction Simulator | Django, Python, MongoDB Atlas, PyMongo, Git

Scrum team project using a Django backend and MongoDB database; contributed to database integration and collaborative development.

GitHub Portfolio | GitHub Pages, HTML/CSS

Built and published a personal portfolio site showcasing technical work and projects.
